Index to Volume XXVI, September 1996 to May 1997

Author Index

Akinmoladun, Tunde M. The impact of associate degree programs on the promotion of public health. D/J 172

Anderson, Elaine J. Science in a bag. S/O 37

Anderson, Elaine J. Active learning in the lecture hall. M 428

Anderson, Richard. Case studies: An exercise for teaching microbiology to allied health students. The Two-Year College. S/O 58

Arámbula-Greenfield, Teresa. Implementing problem-based learning in a college science class. S/O 26

Barot, Bal. Motivating women students: A challenge for chemistry educators. Letters. S/O 15

Barrow, Lloyd, and Sandra Haskins. Earthquake knowledge and experiences of introductory geology students. Research and Teaching. N 143

Beattie, Ruth E. Reviewing *Understanding the cell.* Instructional Media. M 445

Boman, Kimberly, and Brian Shmaefsky. The Brine shrimp as a model organism for biology. Favorite Demonstration. M/A 358

Brunner, Regina Baron. Reviewing *All You Wanted to Know About Mathematics But Were Afraid to Ask—Mathematics for Science Students* Volume 1 by Louis Lyons. Book Reviews. M/A 366

Buchwald, Caryl Edward. Undergraduate geology education—The Carleton College experience. M/A 325

Burke, Barbara A. Chemistry at work. Favorite Demonstration. D/J 214

Cahoon, Lawrence B. Using stormwater detention ponds for aquatic science instruction. N 115

Caprio, Mario W. Want to be at your best in the classroom? The Two-Year College. D/J 212

Caprio, Mario W. Hello! Is anybody out there? The Two-Year College. F 243

Caprio, Mario W., Nathan Dubowsky, Lynda B. Micikas, and Yen-Yuan James Wu. It happened in Phoenix. The Two-Year College. M/A 319

Caprio, Mario W. Bits and pieces. The Two-Year College. M 439

Cohen, Paul and Brenda. Musée du Papier Peint: The Wallpaper Museum in Rixheim, France. Finding Science Past and Present. S/O 69

Cohen, Paul and Brenda. The Qwensel House and The Pharmacy Museum, Turku/Åbo, Finland. Finding Science Past and Present. N 136

Cohen, Paul and Brenda. Linnaeus in Uppsala, Sweden. Finding Science Past and Present. D/J 209

Cohen, Paul and Brenda. The Skimuseet (Ski Museum) at Holmenkollen, Norway. Finding Science Past and Present. F 288

Cohen, Paul and Brenda. Tøjhusmuseet, the Royal Danish Arsenal Museum in Copenhagen. Finding Science Past and Present. M/A 362

Cohen, Paul and Brenda. The State Museum of Technology and Work, Mannheim, Germany. Finding Science Past and Present. M 441

Collins, Michael A.J. A successful experiment with an electronic bulletin board in a large class. D/J 189

Commonwealth Partnership, The. What you should know. Point of View. M/A 311

Crandall, G. Douglas. Old wine into new bottles. M 413

DeBruin, Jerome E. Reviewing *Who Will Do Science?* edited by Willie Pearson and Alan Fechter. Book Reviews. S/O 77

DeBruin, Jerome E. Reviewing *Teaching on Solid Ground: Using Scholarship to Improve Practice* edited by Robert J. Menges, Maryellen Weimer and Associates. Book Reviews. F 294

DeBruin, Jerome E. Reviewing *Teaching Science to Language Minority Students* by Judith W. Rosenthal. Book Reviews. M 443

DeSieno, Robert P. Science, technology, and national security. M 398

Didion, Catherine Jay. Dual careers and shared positions. Women in Science. N 123

Didion, Catherine Jay. When preparation meets opportunity. Women in Science. F 236

Didion, Catherine Jay. The world wide web has arrived—science educators must all get aboard. Women in Science. M 435

Donovan, Michael P. 'What am I doing here?' Some thoughts on how this column might better serve its audience. SCST. M/A 313

Donovan, Michael P. The vocabulary of biology and the problem of semantics. SCST. M 381

Druger, Marvin. Preparing the next generation of college science teachers. M 424

Dubowsky, Nathan. Profiles. M/A 299

Edwards, Ronald. Evolutionary biology at the movies. M/A 333

Ehrlich, Robert, Melvin Friedlander, Douglas Mose, Tom Kiley, Robert Pasnak, Robert Smith, and Anita Taylor. The "old dogs" project. M 405

Fisher, Thomas M. Reviewing *Greening the College Curriculum—A Guide to Environmental Teaching in the Liberal Arts* edited by Jonathan Collett and Stephen Karakashian. Book Reviews. F 293

Foster, Ted F. A case for "collaborative learning" of science. Letters. N 90

Fox, Marty, and John J. Gaynor. A demonstration of the molecular basis of sickle-cell anemia. Favorite Demonstration. N 147

Francis, Joseph W. Technology-enhanced research in the science classroom. D/J 192

Franz, Craig J., and Margot Soven. Writing in biology: The senior project. N 111

Frey, John T. Homestudy assignments: An experiment in promoting active learning in introductory chemistry. F 281

Gans, Dian Althea. Educational challenges and research opportunities. Research and Teaching. D/J 201

Gasiorowski, Jeanne. A world turned upside down! Letters. N 91

Gilmore, Maurice E. Reviewing *The Mathematical Universe* by William Dunham. Book Reviews. N 150

Grismer, Mark. Profiles. N 83

Hall, Donald. Profiles. M 371

Halyard, Rebecca A. The college science classroom. SCST. N 125

Hamilton, Robert G. DNA sequencing in undergraduate laboratory courses. M/A 351

Hartman Jr., Elliott. Profiles. F 227

Hartman, Iclal S. Interactive and cooperative methods: An extension to oral reports. N 107

Heady, Judith E. Questioning the perceived nature of "radical subjectivism." Letters. S/O 10

Herreid, Clyde Freeman. Structured controversy: A case study strategy. N 95

Herreid, Clyde Freeman. Profiles. D/J 155

Herreid, Clyde Freeman. Citation addendum. Letters. M/A 302

Hershey, David R. Don't underestimate the baldcypress! Letters. S/O 11

Hershey, David R. Research emphasis vs teaching quality: A rebuttal. Letters. N 91

Hoffman, Franz. Fighting cancer with good taste (and a good diet). D/J 197

Hoffman, Lyubov Byrne. From Russia with... My teaching experience at a Russian community college. Letters. M/A 301

Hoffman, Roald. Research strategy: Teach. Point of View. S/O 49

Hoots, Rita. Balancing student and faculty concerns in reporting assessment results. Letters. S/O 10

Hoots, Rita A. Reviewing *Science Teaching and the Development of Thinking* by Anton E. Lawson. Book Reviews. D/J 223

Howard, Robert E., and William J. Boone. What influences students to enjoy introductory science laboratories? Research and Teaching. M 383

Howard Hughes Medical Institute. The many paths to success. Point of View. F 247

Iona, Mario. Miscalculating the moment of inertia? Letters. M 375

Ireton, Frank W., Cathryn A. Manduca, and David W. Mogk. Toward a coherent plan for undergraduate earth science education: A systems approach. National and Legislative View. M/A 304

Johnson, Douglas C. The Johnson D.C. electric motor recipe. Favorite Demonstration. M 437

Kauffman, George B., and Laurie M. Kauffman. Reviewing *Firewalking: Myth vs Physics.* Instructional Media. N 152

Kauffman, George B., and Laurie M. Kauffman. Reviewing *Molecular Miracles: Human Gene Therapy and the Future of Modern Medicine.* Instructional Media. D/J 221

Kauffman, George B. The thermit reaction: A dazzling thermochemical demonstration. Favorite Demonstration. F 286

Kauffman, George B., and Laurie M. Kauffman. Reviewing *The Private Life of Plants.* Instructional Media. F 290

Kauffman, George B. Reviewing *Molecular Origami: Precision Scale Models from Paper.* Instructional Media. F 291

Kauffman, George B. Reviewing *Visualizing Chemistry: Investigations for Teachers.* Instructional Media. M/A 364

Kauffman, George B., and Laurie M. Kauffman. Reviewing *Genome: Solving the Code of Life.* Instructional Media. M/A 365

King, Hobart M. Interpretation and closure in the historical geology laboratory. M/A 329

Kirkland, Willis L. Teaching biology through creative writing. F 277

Knox, John A. Reform of the college science lecture through storytelling. Point of View. M 388

Koeppe, Roger E. Reviewing *Learning Biochemistry—100 Case Oriented Problems* by Richard Luduena. Book Reviews. F 294

Lane, Neal. Finding common ground. Point of View. N 127

Larson, Admiral Charles R. "Pumping" character. Editorial. S/O 7

Levin, Douglas R., and Jerome A. Montvilo. Shipwreck salvage: A unique approach to integrating science with a business curriculum. S/O 31

Lewis, Ralph W. Failure to address "theory" detracts from NSF report. Letters. F 230

Liao, Thomas T. Crossing disciplinary lines—Bar codes and DNA codes. M/A 355

Lindell, Thomas J., and Gavin J. Milczarek. Ethical, legal, and social issues in the undergraduate biology curriculum. M/A 345

Lord, Thomas. Student cooperation, not competition, to combat cheating. Letters. N 89

Loucks-Horsley, Susan, Rodger W. Bybee, and Ellen L.C. Wild. The role of community colleges in the professional development of science teachers. The Two-Year College. N 130

Lowry, J.D. Communities of trust: A recent graduate's experience with honor codes. Editorial. S/O 6

Mann, Nancy Jean. A cooperative learning experiment: What's missing. Letters. M 376

Maret, Timothy J., and Robert E. Ziemba. Statistics and hypothesis testing in biology. F 283

McIntosh, William J. Assessment in higher education. SCST. S/O 52

McIntosh, William J. The dynamics of change in college science teaching. SCST. D/J 206

McIntosh, William J. The state of the society. SCST. F 234

Metzenberg, Stan. Editorial. M/A 300

Micikas, Lynda. Profiles. S/O 3

Mims, Forrest M. Hands-on activities. The better approach to learning biology. Letters. M 377

Moore, Randy. Profiles. N 83

Mulvihill, Charlotte. Profiles. S/O 3

Nakhleh, Mary. Profiles. F 227

National Science Foundation. Shaping the future.
